

■ Deepfake Detection Report

■ Executive Summary

File Name	945.mp4
Analysis Date	2025-07-29 17:53:39
Final Prediction	FAKE
Confidence Score	54.0%
Risk Level	LOW
Processing Time	21.81s

■ Technical Analysis

Model Used	Enhanced XceptionNet (improved)
Detection Method	Deep Learning - XceptionNet (improved architecture)
Threshold Used	N/A
Temporal Consistency	N/A
Real Probability	46.1%
Fake Probability	53.9%

■ Recommendations

1. ■■ Potential deepfake detected - verify source authenticity
2. ■ Consider secondary verification with alternative detection methods
3. ■ Low confidence score - manual expert review recommended
4. ■ Save this report for audit trail and documentation
5. ■ Regular model updates improve detection accuracy
